## Quicker Premium Adult Light Mini Breed

Quicker Premium Light Breed is nutritionally balanced high-quality food specially created for light-haired dogs. The formula does not contain raw materials that contain natural red and yellow pigments due to the effect on the discoloration coat (the dog retains the white color of the coat). Everything nutritional needs are covered according to European regulations and the American Food Producers Association for pets. This food also contains fishmeal fish oil, as well as special raw materials that help with reducing the unpleasant odors of animal excrement, and fruit oligosaccharides and Mangone oligosaccharides that allow healthy work of the digestive system.
